SUMMARY

Generative AI Engineer with around 4 years of experience building scalable web applications using React.js, Next.js, Python, FastAPI, MySQL. Experienced in Generative AI, LLMs, RAG, AI chatbots, embeddings, vector databases, and Agentic AI. Hands-on experience building AI-powered learning solutions, including Class Buddy, with context-aware chatbots and automated summaries for students, parents, and teachers. Skilled in RESTful APIs, third-party integrations, and delivering scalable, user-focused solutions.

SKILLS

Languages : JavaScript, Python

Frontend Development : React.js, Next.js, Typescript, Redux, Material-UI, HTML, CSS

Backend Development : FastAPI (RESTful APIs), API documentation (Swagger), Unit testing (Pytest), Load testing (Locust)

Databases : MySQL , Qdrant

AI / GenAI : LLMs, Generative AI, RAG, AI Agents, Prompt Engineering, Embeddings, Hybrid Search, Re-ranking, LangChain, LangGraph

DevOps & Tools : Git, GitHub, AWS, CI/CD Pipelines, Docker

PROFESSIONAL EXPERIENCE

TalentGum

Generative AI Engineer

February 2026 - Present

- Working on a Next.js-based e-learning platform, integrating APIs to build dynamic UI and managing state using Redux.
- Developing Class Buddy, an AI-powered learning companion with an AI chatbot and automated class summaries for students, parents, and teachers.
- Building RAG pipelines using FastAPI, LLMs, embeddings, and Qdrant for context-aware chatbot responses and classroom knowledge retrieval.
- Integrating AI backend APIs with Next.js, Redux, and reusable frontend components.

Activant Solutions PVT LTD

Web Application Developer

September 2025 - February 2026

- Frontend development of an enterprise SaaS app for Shopify merchants using Next.js, React.js and Polaris.
- Implemented background jobs and async workflows in node.js.
- Built a responsive, high-performance UI using Next.js, React.js and Shopify Polaris & Developed analytics dashboards, points, and rewards modules.
- Ensured scalable, reusable UI components and a seamless user experience.

Infoshor Software PVT LTD

Associate Software Developer

February 2023 - August 2025

- Developed and maintained web applications using React.js, Python and MySQL.
- Improved system performance and scalability through optimized database design and AWS deployment.
- Collaborated with cross-functional teams to deliver user-focused features and reduce delivery time.
- Ensured high code quality through best practices, code reviews, and Git.

PROJECTS

TalentGum – E-Learning Platform | Frontend & Class Buddy AI Module

- Developed and enhanced the Next.js-based e-learning platform, building dynamic, responsive UI and integrating REST APIs using Redux.
- Built Class Buddy, an AI-powered learning companion featuring an AI chatbot and automated class summaries for students, parents, and teachers.
- Developed RAG pipelines using Python, FastAPI, LLMs, embeddings, and Qdrant for context-aware responses and classroom knowledge retrieval.
- Built transcript processing workflows using Whisper/Deepgram, LLM-based filtering, enrichment, and semantic chunking to generate structured class insights.
- Created reusable frontend components, modules, and helper functions to improve scalability and maintainability.

FavLoyalty – Loyalty & Rewards Platform

- Built an enterprise SaaS app for Shopify merchants with loyalty points, referrals, and tiered rewards.
- Designed a merchant-friendly UI using Next.js and Shopify Polaris, improving usability and reducing onboarding time.
- Delivered features like analytics dashboards, points settings, redeem settings etc.

Shopify eBay Importer

- Built an integration platform to sync and manage products across Shopify and eBay.
- Implemented real-time product fetching with AWS SQS & Lambda and designed a dashboard for sync status and analytics.
- Added user profile management, product import/export, and AI-driven category suggestions & error resolution using embeddings, vector DB, and prompt-based agents.
- Tech stack: React.js, Python, Shopify/eBay APIs, AWS (SQS, Lambda), AI embeddings, vector DB.

EDUCATION & CERTIFICATIONS

MERN Stack Internship — GIP Technologies Pvt. Ltd. (Jaipur) | Aug 2022 – Jan 2023

MERN Stack Certification & Training — Grras Solutions Pvt. Ltd. (Jaipur) | Jan 2022 – Jul 2022

BMIT college sitapura, Jaipur — Bachelor's in civil engineering
